Ramsdell Stone & Gravel, Inc.	)	Departmental		
York County	)	Findings of Fact and Order		
York, Maine	)	<b>Air Emission License</b>		
A-640-71-E-R/M	)			

After review of the air emission license application, staff investigation reports, and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A., Section 344 and Section 590, the Department finds the following facts:

# I. REGISTRATION

## A. Introduction

Ramsdell Stone & Gravel, Inc. (RSG), located in York, Maine has applied to renew their Air Emission License, permitting the operation of emission sources associated with their crushed stone and gravel facility.

RSG has requested to correct the process rate of Rock Crusher CO2 from their previous license of 50 tons/hr to 150 tons/hr.

# B. Emission Equipment

Ramsdell Stone & Gravel, Inc. is authorized to operate the following equipment:

### **Rock Crushers**

<b>Equipment</b>	Power Source	Process Rate (tons/hr)	Date of Manufacture	Control <u>Device</u>
CO1	Diesel #1	50	1962	Spray Nozzles
CO2	Diesel #2	150	1986	Spray Nozzles

#### **Diesel Units:**

<b>Equipment</b>	Max. Capacity (MMBtu/hr)	Max. Firing Rate (gal/hr)
Diesel #1	1.7	12.4
Diesel #2	4.7	34.3

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order
York, Maine	)	Air Emission License
A-640-71-E-R/M	2	

# C. Application Classification

This renewal and revision will increase emissions by less than 4 ton/year for each single pollutant and less than 8 ton/year for all pollutants combined. Therefore, this License is determined to be a renewal of a minor source with a minor revision and has been processed as such.

# II. BEST PRACTICAL TREATMENT

# A. Introduction

In order to receive a license the applicant must control emissions from each unit to a level considered by the Department to represent Best Practical Treatment (BPT), as defined in *Definitions Regulation*, 06-096 CMR 100 (last amended December 24, 2005). Separate control requirement categories exist for new and existing equipment as well as for those sources located in designated non-attainment areas.

### B. Rock Crushers

CO1 and CO2 are portable rock crushers that were manufactured in 1962 and 1988 with rated capacities of 50 tons/hr and 150 tons/hr, respectively. CO1 and CO2 rock crushers are therefore not subject to EPA New Source Performance Standards (NSPS) Subpart OOO for Nonmetallic Mineral Processing Plants manufactured after August 31, 1983, with capacities greater than 150 tons/hr for portable plants and greater than 25 tons/hr for non-portable plants.

The regulated pollutant from the rock crushers is particulate emissions. To meet the requirements of Best Practical Treatment (BPT) for control of particulate matter (PM) emissions from the rock crushers, RSG shall maintain water sprays on the rock crushers and operate as needed to control visible emissions. Visible emissions from the rock crushers shall be limited to no greater than 10% opacity on a six (6) minute block average basis.

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order
York, Maine	)	Air Emission License
A-640-71-E-R/M	3	

#### C. Diesel Units

Diesel Units #1 and #2 are utilized primarily to power CO1 and CO2 rock crushers.

The BPT analysis for Diesel Units #1 and #2 is as follows:

- 1. The total fuel use for Diesel Units #1 and #2 shall not exceed 50,000 gallons per calendar year of diesel fuel with a maximum sulfur content not to exceed 0.05% by weight.
- 2. Low Sulfur Fuel, 06-096 CMR 106 (last amended July 4, 1999) regulates fuel sulfur content. However the use of diesel fuel with a sulfur limit not to exceed 0.05% is more stringent and shall be considered BPT.
- 3. Fuel Burning Equipment Particulate Emission Standard, 06-096 CMR 103 (last amended November 3, 1990) regulates PM emission limits for Diesel Unit #2. A PM limit of 0.12 lb/MMBtu shall be considered BPT for Diesel Unit #1. The PM<sub>10</sub> limits are derived from the PM limits.
- 4. NO<sub>x</sub>, CO, and VOC emission limits are based upon AP-42 data dated 10/96.
- 5. Visible emissions from Diesel Units #1 and #2 shall each not exceed 20% opacity on a six (6) minute block average, except for no more than two (2), six (6) minute block averages in a continuous 3-hour period.

## D. Stock Piles and Roadways

Visible emissions from a fugitive emission source shall not exceed an opacity of 20%, except for no more than five (5) minutes in any 1-hour period. Compliance shall be determined by an aggregate of the individual fifteen (15)-second opacity observations which exceed 20% in any one (1) hour.

## E. General Process Emissions

Visible emissions from a general process (including conveyor belts) shall not exceed an opacity of 10% on a six (6) minute block average basis, except for no more than one (1) six (6) minute block average in a 1-hour period.

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order
York, Maine	)	<b>Air Emission License</b>
A-640-71-E-R/M	4	

- F. Facility Emissions and Fuel Use Caps
  - 1. RSG shall be limited to 50,000 gallons per calendar year of diesel fuel with a maximum sulfur content of 0.05%.
  - 2. RSG shall be restricted to the following annual emissions.

# **Total Allowable Annual Emission for the Facility**

(used to calculate the annual license fee)
Tons/Year

	PM	PM <sub>10</sub>	SO <sub>2</sub>	NO <sub>x</sub>	CO	VOC
Diesel Units	0.41	0.41	0.17	12.01	3.00	0.53

# III.AMBIENT AIR QUALITY ANALYSIS

According to Chapter 115 of the Maine Air Quality Regulations, the level of air quality analyses required for a minor source shall be determined on a case-by-case basis. Based on the information available in the file, and the similarity to existing sources, Maine Ambient Air Quality Standards (MAAQS) will not be violated by this source.

### **ORDER:**

Based on the above Findings and subject to conditions listed below, the Department concludes that the emissions from this source:

- will receive Best Practical Treatment,
- will not violate applicable emission standards,
- will not violate applicable ambient air quality standards in conjunction with emissions from other sources.

The Department hereby grants Air Emission License A-640-71-E-R/M subject the following conditions:

<u>Severability</u>. The invalidity or unenforceability of any provision, or part thereof, of this License shall not affect the remainder of the provision or any other provisions. This License shall be construed and enforced in all respects as if such invalid or unenforceable provision or part thereof had been omitted.

#### STANDARD CONDITIONS

(1) Employees and authorized representatives of the Department shall be allowed access to the licensee's premises during business hours, or any time during which any emissions units are in operation, and at such other times as the Department

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order
York, Maine	)	<b>Air Emission License</b>
A-640-71-E-R/M	5	

deems necessary for the purpose of performing tests, collecting samples, conducting inspections, or examining and copying records relating to emissions. [06-096 CMR 115]

- (2) The licensee shall acquire a new or amended air emission license prior to commencing construction of a modification, unless specifically provided for in Chapter 115. [06-096 CMR 115]
- (3) Approval to construct shall become invalid if the source has not commenced construction within eighteen (18) months after receipt of such approval or if construction is discontinued for a period of eighteen (18) months or more. The Department may extend this time period upon a satisfactory showing that an extension is justified, but may condition such extension upon a review of either the control technology analysis or the ambient air quality standards analysis, or both. [06-096 CMR 115]
- (4) The licensee shall establish and maintain a continuing program of best management practices for suppression of fugitive particulate matter during any period of construction, reconstruction, or operation which may result in fugitive dust, and shall submit a description of the program to the Department upon request. [06-096 CMR 115]
- (5) The licensee shall pay the annual air emission license fee to the Department, calculated pursuant to 38 M.R.S.A. § 353. [06-096 CMR 115]
- (6) The license does not convey any property rights of any sort, or any exclusive privilege. [06-096 CMR 115]
- (7) The licensee shall maintain and operate all emission units and air pollution systems required by the air emission license in a manner consistent with good air pollution control practice for minimizing emissions. [06-096 CMR 115]
- (8) The licensee shall maintain sufficient records to accurately document compliance with emission standards and license conditions and shall maintain such records for a minimum of six (6) years. The records shall be submitted to the Department upon written request. [06-096 CMR 115]
- (9) The licensee shall comply with all terms and conditions of the air emission license. The filing of an appeal by the licensee, the notification of planned changes or anticipated noncompliance by the licensee, or the filing of an application by the licensee for a renewal of a license or amendment shall not stay any condition of the license. [06-096 CMR 115]

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order
York, Maine	)	<b>Air Emission License</b>
A-640-71-E-R/M	6	

- (10) The licensee may not use as a defense in an enforcement action that the disruption, cessation, or reduction of licensed operations would have been necessary in order to maintain compliance with the conditions of the air emission license. [06-096 CMR 115]
- (11) In accordance with the Department's air emission compliance test protocol and 40 CFR Part 60 or other method approved or required by the Department, the licensee shall:
  - A. perform stack testing to demonstrate compliance with the applicable emission standards under circumstances representative of the facility's normal process and operating conditions:
    - 1. within sixty (60) calendar days of receipt of a notification to test from the Department or EPA, if visible emissions, equipment operating parameters, staff inspection, air monitoring or other cause indicate to the Department that equipment may be operating out of compliance with emission standards or license conditions; or
    - 2. pursuant to any other requirement of this license to perform stack testing.
  - B. install or make provisions to install test ports that meet the criteria of 40 CFR Part 60, Appendix A, and test platforms, if necessary, and other accommodations necessary to allow emission testing; and
  - C. submit a written report to the Department within thirty (30) days from date of test completion.

[06-096 CMR 115]

- (12) If the results of a stack test performed under circumstances representative of the facility's normal process and operating conditions indicate emissions in excess of the applicable standards, then:
  - A. within thirty (30) days following receipt of such test results, the licensee shall re-test the non-complying emission source under circumstances representative of the facility's normal process and operating conditions and in accordance with the Department's air emission compliance test protocol and 40 CFR Part 60 or other method approved or required by the Department; and
  - B. the days of violation shall be presumed to include the date of stack test and each and every day of operation thereafter until compliance is demonstrated under normal and representative process and operating conditions, except to the extent that the facility can prove to the satisfaction of the Department that there were intervening days during which no violation occurred or that the violation was not continuing in nature; and
  - C. the licensee may, upon the approval of the Department following the successful demonstration of compliance at alternative load conditions, operate under such alternative load conditions on an interim basis prior to a demonstration of compliance under normal and representative process and operating conditions.

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order
York, Maine	)	<b>Air Emission License</b>
A_640_71_F_R/M	7	

- (13) Notwithstanding any other provisions in the State Implementation Plan approved by the EPA or Section 114(a) of the CAA, any credible evidence may be used for the purpose of establishing whether a person has violated or is in violation of any statute, regulation, or Part 70 license requirement. [06-096 CMR 115]
- (14) The licensee shall maintain records of malfunctions, failures, downtime, and any other similar change in operation of air pollution control systems or the emissions unit itself that would affect emission and that is not consistent with the terms and conditions of the air emission license. The licensee shall notify the Department within two (2) days or the next state working day, whichever is later, of such occasions where such changes result in an increase of emissions. The licensee shall report all excess emissions in the units of the applicable emission limitation. [06-096 CMR 115]
- (15) Upon written request from the Department, the licensee shall establish and maintain such records, make such reports, install, use and maintain such monitoring equipment, sample such emissions (in accordance with such methods, at such locations, at such intervals, and in such a manner as the Department shall prescribe), and provide other information as the Department may reasonably require to determine the licensee's compliance status. [06-096 CMR 115]

### **SPECIFIC CONDITIONS**

#### (16) Rock Crushers

- A. RSG shall install and maintain spray nozzles for particulate control on the CO1 and CO2 rock crushers and operate them as necessary to limit visible emissions to no greater than 10% opacity on a six (6) minute block average basis. [06-096 CMR 115, 06-096 CMR 101, BPT]
- B. RSG shall maintain a log detailing the maintenance on the water spray nozzles. The maintenance log shall be kept on-site at the rock crushing location. [06-096 CMR 115, BPT]
- C. RSG shall maintain a log detailing and quantifying the hours of operation on a daily basis for the CO1 and CO2 rock crushers. The operation log shall be kept on-site at the rock crushing location. [06-096 CMR 115, BPT]
- D. The crushers shall not be attached or clamped via cable, chain, turnbuckle, bolt, or other means (except electrical connections) to any anchor, slab, or structure (including bedrock) that must be removed prior to transportation. [06-096 CMR 115, BPT]

Ramsdell Stone & Gravel, Inc.	)	Departmental
York County	)	Findings of Fact and Order

A-640-71-E-R/M	8	

### (17) Diesels #1 and #2

- A. Total annual facility fuel use shall not exceed 50,000 gallons per calendar year of diesel fuel oil with a maximum sulfur content not to exceed 0.05% by weight. Records from the supplier documenting quantity delivered and sulfur content shall be kept for compliance purposes. [06-096 CMR 115, BPT]
- B. Emissions shall not exceed the following: [06-096 CMR 115, 06-096 CMR 103, BPT]

Equipment		PM	PM <sub>10</sub>	SO <sub>2</sub>	NO <sub>x</sub>	CO	VOC
Diesel #1	lb/hr	0.20	0.20	0.09	7.50	1.62	0.60
Diesel #2	lb/MMBtu	0.12	-	-	-	-	-
	lb/hr	0.56	0.56	0.24	15.04	4.00	0.42

C. Visible emissions from the each diesel unit shall not exceed 20% opacity on a (6) six-minute block average except, for no more than two (2), six (6) minute block averages in a 3-hour period. [06-096 CMR 101]

# (18) Stockpiles and Roadways

Visible emissions from a fugitive emission source shall not exceed an opacity of 20%, except for no more than five (5) minutes in any 1-hour period. Compliance shall be determined by an aggregate of the individual fifteen (15)-second opacity observations which exceed 20% in any one (1) hour. [06-096 CMR 101]

## (19) General Process Sources

Visible emissions from any general process source shall (including conveyor belts) not exceed an opacity of 10% on a six (6) minute block average basis, except for no more than one (1) six (6) minute block average in a 1-hour period. [06-096 CMR 101, 06-096 CMR 115, BPT]

## (20) **Equipment Relocation** [06-096 CMR 115, BPT]

A. RSG shall notify the Bureau of Air Quality, by a written notification at least 48 hours prior to relocation of any equipment carried on this license. Written notice may be sent by mail, facsimile (fax), or e-mail. Notification sent by mail shall be sent to the address below or to a Department Regional Office:
